

ON DEMAND - SYMPOSIA

SIG SYMPOSIUM

Kidney Function and Beyond

Chair: Francesco Mattace-Raso, The Netherlands

1. Daily pitfalls in using eGFR in older adults: raising awareness for clinicians
Lisanne Tap, The Netherlands
2. The Dynamic of Fear of Falling in Older Fallers
Ellen Freiburger, Germany

SIG SYMPOSIUM

Delirium and Dementia – still unresolved Giants

1. Delirium: an update on prevention and treatment
Leiv Otto Watne, Norway
2. Atypical dementia in older population
Nenad Bogdanovic, Sweden
3. Cognitive enhancement and quality of life using new technologies in older people
Magda Tsolakis, Greece

SIG SYMPOSIUM ON SYSTEMATIC REVIEWS AND META-ANALYSES

Doing meta-research in COVID-19 era: a point of view of the Special Interest Group in systematic reviews and meta-analyses of the EuGMS

Chair: Jacopo De Murtas, Italy

1. Research for observational and intervention studies in COVID-19
Lee Smith, UK
2. Doing meta-research at the time of COVID-19
Nicola Veronese, Italy

SIG ON GERIATRIC EMERGENCY MEDICINE

Making impact in Geriatric Emergency Medicine across Europe: launch a series of guidelines

1. The why, how and what of European guidelines on Geriatric Emergency Medicine
Simon Mooijaart, The Netherlands
2. European guideline on Geriatric Emergency Medicine – Age and frailty adjusted risk stratification
Bas de Groot, The Netherlands
3. Official launch of the series of guidelines: next steps to create impact across Europe
Stephen Lim, UK

SIG-PALLIATIVE CARE SYMPOSIUM EuGMS 2020 ATHENS: JOINT SYMPOSIUM WITH EAPC SIG OLDER PEOPLE

How can geriatric care benefit from palliative care and vice versa?

Chair: Ruth Piers, Belgium

1. How can geriatric care benefit from palliative care and vice versa: the hospital setting
Marc V Ahmed, Norway
2. How can geriatric care benefit from palliative care and vice versa: the home setting
Lisa Hentsch, Switzerland
3. How can geriatric care benefit from palliative care and vice versa: the COVID-19 pandemic
R.L. van Bruchem-Visser, The Netherlands

SIG ON DEMENTIA

Three different perspectives for older patients with dementia

Chairs: Susan Shenkin, United Kingdom / Nicola Veronese, Italy

1. The interplay between multimorbidity and dementia
Alessandra Marengoni, Sweden
2. Challenge of managing dementia in people with other geriatric syndromes
Pinar Soysal, Turkey
3. Delirium and dementia- relationship, differentiation and co-management
Suzanne Timmons, Ireland

SIG FALLS & FRACTURE

New Horizons in falls and fracture management: an update from the EuGMS SIG Falls and Fractures

1. What's new in falls prevention: the ongoing world falls guidelines initiative
Nathalie van der Velde, the Netherlands
2. What's new in fracture prevention: the FFN perspective
David Marsh, UK
3. What's new in syncope
Rose Anne Kenny, Ireland

SIG ON GERIATRIC REHABILITATION SYMPOSIUM

EuGMS SIG-on GR Symposium- Challenges and Responses of Geriatric Rehabilitation in relation to the COVID-19 pandemic

Chairs: Jos Schols/Achterberg, Clemens Becker

1. Global Consensus Statement on principles and future priorities of Geriatric Rehabilitation
Stefan Grund
 2. Presentation Interim Guidance on postCOVID-19 Geriatric Rehabilitation
Jolanda van Haastregt
 3. The COVID-Rehabilitation Paradox
Stefan Grund
- Discussion

SYMPOSIUM

The EMMA project: Developing a European online Masters programme on active ageing and age-friendly society

Chairs: Panagiota Sourtzi, Greece / Andrea Stitzel, Austria

1. Active ageing and age-friendly societies: meeting the learning needs of multiple actors via an online Masters programme
Suzanne Timmons, Ireland
2. Development of the EMMA Interdisciplinary, Multinational on-line Master Programme in Active Ageing and Age-friendly Society
Raija Kuisma, Finland

SYMPOSIUM EuGMS 2021 SYMPOSIUM PROMISS

Effects of increased protein intake on physical function and sustainability of the diet in community-dwelling older adults: results of the PROMISS trial

Chair: Marjolein Visser, The Netherlands

- The cost-effectiveness of personalized dietary advice to increase protein intake on change in physical functioning in older adults with lower habitual protein intake: A Randomized Controlled Trial
Hanneke Wijnhoven, The Netherlands
- Effect of personalized dietary advice to increase protein intake on food consumption and the environmental impact of the diet in community-dwelling older adults: results from the PROMISS trial
Alessandra Grasso, The Netherlands

ON DEMAND - SUBMITTED SYMPOSIA

SUBMITTED SYMPOSIUM

Translating a proven functional exercise program (LiFE) for different populations and settings

Chair: Clemens Becker, Germany

1. Harnessing health psychology in the adaptation of the LiFE programme
Elisabeth Boulton, United Kingdom
2. PreventIT feasibility RCT: Improving physical function in older age by changing people's habits in daily life
Kristin Taraldsen, Norway
3. Comparison of a group-delivered and individually delivered lifestyle-integrated functional exercise (LiFE) program in older persons: a randomized noninferiority trial
Michael Schwenk, Germany

SUBMITTED SYMPOSIUM

Exploring Drug Prescribing Through a Sex and Gender Lens

Chair: Graziano Onder, Italy

1. Exploring sex and gender differences in a common prescribing cascade: cholinesterase inhibitors and overactive bladder medications
Paula Rochon, Canada
2. Gender differences in polypharmacy and prescribing cascades in nursing home residents
Antonio Cherubini, Italy
3. Influence of patient sex on polypharmacy, potentially inappropriate prescribing and adverse drug reactions in multi-morbid older people in the SENATOR trial
Denis O'Mahony, Ireland

SUBMITTED SYMPOSIUM

The relationship between delirium and frailty: is immune ageing a common pathway?

Chair: Carly Welch

1. Bi-directional relationship with frailty and delirium: Insights from a community based study (CASCADE)
Maria Krogseth
2. Inflammageing – a shared pathway to delirium and frailty?
Thomas Jackson
3. Might interventions for frailty also affect delirium?
Nicolas Martinez-Velilla

SUBMITTED SYMPOSIUM

Medication Use in Long-Term Care Facilities: Challenges and Controversies

Chair: Matteo Cesari, Italy

1. Inappropriate drug prescribing in the nursing home and effects of a geriatric intervention: Results from the IQUARE study.
Charlene Cool, France
2. The challenge of Benzodiazepine use and deprescribing in nursing homes.
Perrine Evrard, Belgium
3. Improving antibiotic prescribing in nursing homes: Challenges and strategies
Philip Sloane, USA

SUBMITTED SYMPOSIUM

Technology and Design for Ageing: impact on daily practice

Chair: Van der Cammen T.J.M, The Netherlands, Antoine Piau, France

1. Indoor Positioning System in a nursing home ward of people with dementia: what does it tell us about Behavioural and Psychological Symptoms of Dementia?
Gubing Wang, The Netherlands
2. ONCO-E-START: the Future e-Care for Older People undergoing Chemotherapy at Home
Antoine Piau, France
3. The Dementia house: a home created to showcase how people with the condition can live independently for longer
Eveline Hogervorst, UK

SUBMITTED SYMPOSIUM

Deprescribing in older people approaching end-of-life

Chair: Lucas Morin, Italy

1. Caregivers' perspectives of deprescribing in advanced and end-stage dementia
Carole Parsons, UK
2. Use of preventive medications at the end of life: room for deprescribing
Graziano Onder, Italy

ON DEMAND - LECTURES

LECTURE

EuGMS PROJECTS: Guidelines on Physical activity and Dementia

Nicola Veronese, Italy

LECTURE

The benefits of mindfulness based interventions for aging population

Myrto Legaki, Greece

ON DEMAND - MSD SPONSORED SESSION

Cardiovascular outcomes: Is there a role for pneumococcal vaccination?

Chair: Charalambos V. Vlachopoulos, Greece

1. Welcome and introduction
Charalambos V. Vlachopoulos, Greece
2. Cardiovascular outcomes: Is there a role for pneumococcal vaccination?
Charalambos V. Vlachopoulos, Greece
3. Closing remarks
Charalambos V. Vlachopoulos, Greece
